# INTRODUCTORY.

OFFICE WESTERN PUBLISHING CO.,
146 South Water Street, Chicago,
March 16th, 1868.

In presenting this, the first volume of HOLLAND'S DIRECTORY to the citizens and business men of East Saginaw and Saginaw City, we feel a *justifiable* pride in being able to furnish such a handsome and reliable Book. We have spared no pains or expense in Printing and Binding this work to insure ACCURACY, and BEAUTY of appearance. We feel confident our patrons will be satisfied with our endeavors. A comparison with the former Directory, is asked. In the Directory issued in 1865, there were 2205 names; in the present work, there are 3561, a gain of 1356 names. Multiplying the number of names by 4, the usual figure, we find the population of East Saginaw 14,244. Our census made only 13,350; but non-residents and transients were not included in the latter figures. The population of Saginaw City is 7,134, or together, 21,378 souls With many thanks to Hon. W. H. Taylor of Saginaw City, Messrs. Smith & Crouse, Pantlind Witt & Co., Webber & Smith, James L. Ketcham, Morley Brothers, Frizelle Brothers, and many others who have kindly given us their countenance and patronage, and assuring all that we shall redouble our efforts to please on our next Directory, of your beautiful Cities.

We remain, very respectfully,

WESTERN PUBLISHING COMPANY,
PUBLISHERS.

# CITY OF EAST SAGINAW, MICH.

## HISTORICAL AND BUSINESS REVIEW.

### ITS PROGRESS AND PROSPECTS.

The City of East Saginaw, is an incorporated City of Saginaw County, Northern Michigan, and is pleasantly situated on the east bank of the beautiful Saginaw river, about four miles from the junction of the Tittabawassee, Shiawassee and Cass rivers, with the above stream, and is about 20 miles from Saginaw Bay. East Saginaw is one of the marvels of Michigan; the rapidity of its growth has been eclipsed by no city in the State, and the known enterprise and integrity of her business men, conduces in a wonderful degree, to enhance the value of property in and around the city. So recently as the year 1850, we find the total population of East Saginaw was 251 souls; in the year 1865 this had increased to 8,000, and at the present writing, by a carefully taken census, we find a population of 14,261 souls, thus showing what rapid strides are being made in the race of population and civilization by this young giant. this city possesses within her own limits, all the elements of success, having an almost unlimited supply of lumber at her command, as well as much other material which may be used for building purposes.

Lumber, lath, shingles, salt, etc., are manufactured here in immense quantities, and the peculiar facilities she possesses for manufacturing is scarcely excelled by any other city. Originally, the place was called Buena Vista, and was, at its incorporation as a city in 1859, changed to East Saginaw. Some years ago, Bay City pretended to be the rival of this enterprising place, but now appears to have yielded the palm to her more fortunate and energetic neighbor, so that she stands at this writing, *the City* of the Saginaw Valley, a position we feel sure will be fully maintained.

The Saginaw river is navigable to this point for vessels drawing nine feet of water, and during the season of navigation the beautiful Saginaw is seen almost covered with vessels, and with their tall masts and white sails, present a very animated appearance. The season of navigation usually lasts from about the 15th of March to the latter part of November. East Saginaw possesses facilities for transit second to no

city of its size, there being numerous stages to and from the surrounding towns and villages, together with several railroads, East, West and South. The Jackson, Lansing and Saginaw Railroad having just been opened, gives a much more direct communication with Chicago and points on the Michigan Central and Michigan Southern Railways. This, we think, will be of great advantage to this city, as she may, no doubt, secure much of the trade of the southern portion of the State, and also that of Northern Indiana. Better facilities are thus offered for the shipment of lumber and her other productions; and, if the business men of the city do not take advantage of all these facilities to increase their business, then the fault is theirs, and they alone must bear the blame. But, we feel sure the same amount of enterprise will be shown in the future as in the past, and that at no distant day, we shall see the city of East Saginaw the second city in the State, in point of population, manufactures and wealth. Nature has done much for this place, but it must not be forgotten that what dame nature has not done, we ourselves must do as the proverb says: "God helps those who help themselves," and we think this applies to cities and communities with as much force as to individuals.

We omitted to state that there is also a system of street railways in operation, which have some as fine cars as are to be found in Detroit or Chicago. These cars run between the depot at East Saginaw and Saginaw City, crossing the river at Genesee street bridge. This is a great convenience to residents and stranger coming here on business, or otherwise, and who have to frequently visit the two cities which, by the bye, are fully two miles apart.

The streets are mostly plank paved, which, to our mind, is cleaner and much preferable to any, save perhaps the Nicolson pavement. The soil upon which the city city is built, is of a dark, rich nature, and yields abundantly.

Many of the buildings are frame structures, but these are chiefly residences, the stores on the principal streets are built in an imposing and substantial manner of a nice colored brick, which is very pleasing to the eye. A large number of the storekeepers and manufacturers are young, energetic, and enterprising men, and are always ready so assist anything that will conduce to the general interest of the city. This is the proper spirit to evince in all the various transactions of life, and we may rest assured that the city, or person who exhibits the most of it, will invariably receive benefits that other and less energetic persons will never obtain.

## INTERNAL REVENUE STATEMENT OF THE BUSINESS OF SAGINAW VALLEY.

For this article we are indebted to the *Enterprise :*

Knowing how interested the people of our Valley are in whatever has any bearing on the business of this section of the country, we have been at some pains to compile the following statement of the amount of taxes paid since April to the collector of this district on account of internal revenue. The amount paid under each head has beem carefully taken from the official records, and is correct. We have also given, as far as possible, the amounts paid by different individuals and corporations, not of course giving the amount of tax paid by every individual, for evident reasons, the principal of which will be appreciated by none more than the inviduals themselves. The first division of the table shows the whole amount assessed in the district since April 1, 1867, and also the amounts collected and paid over to the United States, while the second part shows on what articles the collections accrued. Next comes a statement of the amount received from the Valley, under each of the heads from which revenue is derived by the government. East Saginaw includes all that part of Saginaw County south of the river—Saginaw, that portion of the county north of the river and Bay City, the whole of Bay County. There is added to this a statement of the amount of tax on gross receipts paid by the various railroad companies in the Valley, also of the amounts paid by the banks on their circulation and deposits, and by two or three of the leading manufacturers of the Valley on the productions of their industry. The following are the amounts assessed and collected in this District :

## Bancroft House, East Saginaw.

The BANCROFT HOUSE of which a good illustration is given above, is a really fine hotel, and is situated in the very business center of the city. We know it is the intention of Messrs. Pantlind, Witt & Co., the proprietors, to keep the BANCROFT in the very best style, while their charges are always moderate. We have often heard this hotel spoken well of by the travelling community, and can now add our testimony to that of others, as we feel no hesitation in saying that the BANCROFT is hard to beat. This house has lately been re-furnished, and is first class in all its appointments.

## Everett House, East Saginaw.

We have a few words to say about the Hotels in East Saginaw, one or two of which deserve more than a passing notice. The Everett House is a large, substantially built, and well furnished House, three

stories high, and is situated on the corner of Franklin and Genesee streets, in the very business centre of the city. Those well known Hosts, Messrs. Smith & Crouse, are the proprietors of the Everett, and to saw the least, they know how to keep a hotel as it should be kept, when the comfort of their guests is studied. The rooms are all light, and ceilings lofty; neat ventilators in each room, and every room in the house tastily and neatly furnished, then the *Table*, without having much superfluous food—food which is seldom if ever eaten—is cram full of good things which may be eaten with the greatest possible relish. The waiters are all civil, prompt and obliging, and every thing goes on as smoothly and comfortably as in our Detroit or Chicago Hotels. The House is well arranged for the comfort and convenience of the guests. A neat and tasty Bar is fitted up, where choice wines and liquors are dispensed at lower rates than in the majority of hotels; also a really fine Billiard Room is attached to this hotel, second to none in this section of the country. Here, again, we found the charges per *game*, less than at any other hotel we had been in the habit of patronizing. Now, if all these advantages are put together, we think the traveling public will not fail to see that this house recommends itself.

# GENERAL EDITORIAL REVIEW:

EMBRACING

## Manufacturers and Prominent Business Houses.

IN THE

## CITY OF EAST SAGINAW.

East Saginaw now boasts of being the second city in the state, and in proportion to her size. has a large number of manufactories and solid business houses—her merchants and dealers are widely known as enterprising, prompt and fair-dealing men—those in the country dealing with East Saginaw, seldom find it profitable or desirable to change to any other city, and as during the next one or two years a large increase may reasonably be expected in the trade of the city with the more remote parts of the state, we deem it not out of place to point out to our readers a few of the places where first-class goods are kept, and where reliance may be placed upon representations made, either with regard to price or quality.

Let us say right here, that the following notices ARE NOT PAID FOR IN ANY INSTANCE—they are free of charge, and are intended to act as a guide to intending purchasers, showing where they may rely upon being treated honestly and fairly. We don't believe much in PAID PUFFS, and prefer to give OUR space GRATIS, thus leaving us free and unfettered to say just what we think about our patrons and those whose advertisements will be found in the pages of this Directory.

There are many we would be pleased to notice in a more extended manner, but our space forbids our entering into this matter at greater length. Amongst the most popular and prominent houses, we may mention the following:

### WEBBER & SMITH,

ATTORNEYS AND SOLICITORS AND DEALERS IN REAL ESTATE. These gentlemen have their office at No. 111 South Washington street, next door to Jackson Hall. Mr. Webber is the oldest resident among the lawyers of the city, having resided here since 1853. Mr. Smith has resided here about six years, and their firm was formed more than five years since.

Their law and collection business has been very large and successful.

They have lately completed a very full and elaborate ABSTRACT OF TITLE to all the real estate in Saginaw County, city, as well as country property, being included. The preparation of this abstract has been, mainly, by Mr. George Schmidt, formerly Register of Deeds and clerk of this County, who has been nearlyt hree years engaged almost exclusively on this work, knowing that the value of the work depends entirely on perfect accuracy. No pains have been spared in this respect, and it has been compared, and re-compared with the original records.

To those who know MR. GEO. SCHMIDT, to know that he performed all the abstracting in person, will be commendation enough.

In comparing the abstract with the records, he has been assisted by ALFRED W. NEWTON, ESQ., who has been with this firm for over two years, and of whom it may be said, "he never makes a mistake." This enterprise has cost the firm a large sum of money, and we are glad to know that the public appreciate their services and patronize their liberality. The possession of this ABSTRACT gives these gentlemen great facilities in the *placing of Loans on perfeet securities*; and, we understand, they propose to devote special attention to this branch of their business. We are satisfied no better men for the business can be found.

## FAMILY & MANUFACT'NG SEWING MACHINES.
**Townsend & Everts, Agts.**

These Machines are superior to all others for family use, for the following reasons:

1. They sew with two threads direct from the spool, and require no re-winding.
2. They are more easily understood and less liable to derangement than other machines.
3. They are capable of executing perfectly, without change of adjustment, a much greater variety of work than other machines.
4. The stitch made by these machines is much more firm, elastic and durable, especially upon articles which require to be washed and ironed, than any other stitch.
5. This stitch, owing to the manner in which the underthread is inwrought, is much the most plump and beautiful in use, and retains this plumpness and beauty, even upon articles frequently washed and ironed, until they are worn out.
6. The structure of the seam is such that, though it be cut or broken at intervals of only a few stitches, it will neither open, run, nor ravel, but remains firm and durable.
7. Unlike other machines, these fasten both ends of the seam by their own operation.
8. With these machines, while silk is used upon the right or face-side of the seam, cotton may be used upon the other side, without lessening the strength or durability of the seam. This can be done on no other machine, and is a great saving upon all articles stitched or made up with silk.
9. These machines, in addition to their superior merits as instruments for sewing, execute the most beautiful and permanent embroidery and ornamental work.

The above points of superiority are fully established by the sworn testimony in the recent case before the United States Patent Office, and by letters from all parts of the country.

## HISTORICAL AND BUSINESS REVIEW.

### ITS PROGRESS AND PROSPECTS.

In presenting this Directory to the citizens and business men of Saginaw City, we feel it to be an appropriate time to say a few words regarding the location of the city, its institutions, resources and business, —our object being to present in a few pages some of the most interesting features of the city, which, with its flattering position, will make Saginaw City erelong an important inland city.

Saginaw City is the county seat of Saginaw County, and is abou eighteen miles from the mouth of the beautiful Saginaw River, on the west side, and is distant about two miles from East Saginaw, which is on the opposite or eastern bank of the river. The two cities are connected with each other by several substantial wooden bridges, and also by a system of street railways, which run from the depot in East Saginaw to a point on Hamilton Street a few rods above the Taylor House in Saginaw City, and which points we think are fully three miles distant from each other. The cars run on some of the finest business streets and as the stranger is taken through the city on the cars, he invariably forms a good opinion of the city and her business men.

Saginaw City is upwards of one hundred miles north-northwest from Detroit via. rail, and about three hundred miles via. water. A line of steamers ply between this city and Detroit, as well as numerous vessels which ply between this and other ports. Immense quantities of lumber' logs, lath and shingles are manufactured and shipped annually from this place both by rail and water.

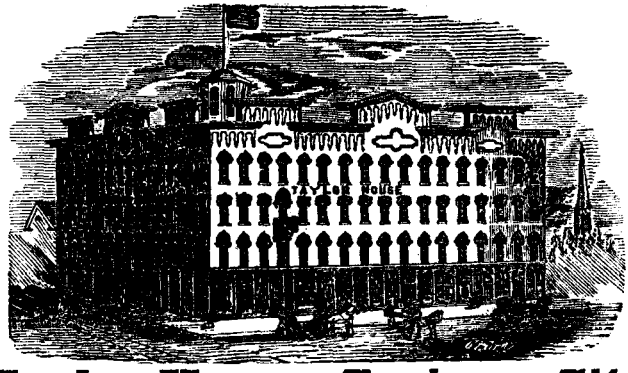

In the year 1850, the city contained only a few stores, now there are a great number, with many hotels, the chief of which is the Taylor House. Hon. W. H. Taylor is the proprietor of this fine building, and is now keeping the hotel in magnificent style. Besides the above, there are numerous saw mills and lumber yards, salt manufactories, &c., &c.

#### POPULATION.

In the year 1860 the whole population was 1,712, in 1865 the population was 5,426 but by a carefully taken census we find the population to be at this writing, March 1 '68, 7,134, which shows a handsome increase when compared with the former figures, and we venture the prediction, that within two years hence the population of Saginaw City will be fully 10,000 souls.

The water communication between this and other cities, is unrivalled,

andnow the F. & P. M. R. R. and Jackson, Lansing and Saginaw R. R. are open, giving direct Rail communication with Detroit, Chicago, Cincinnati and the east, we can see no legitimate cause why Saginaw City shall not grow immensely during the next few years. Land is good in the vicinity, as well as cheap, and many capitalists are investing their money in the purchase of these lands at this time. Settlers are pouring in almost in a stream, and ere long the Northern part of the beautiful State of Michigan will be brought prominently before the business world as a place where none but enterprising, intelligent, and honest people reside.

**Taylor House, Saginaw City.**

**HOTELS.**

We do not propose to enter into the subject of *puffing* up hotels in the present work, but there is one of which we desire to say a few words, that is the Taylor House, of which a good representation is given above. This magnificent building was built by the Hon. W. H. Taylor, who now keeps the house. It is a really first class hotel, and vies with some of the boasted first class hotels in our larger cities; the ceilings of the rooms are all very lofty, light and pleasant, while the furniture is superb; no better could have been secured. The table is well supplied with the choicest viands, and all served in a clean and tasty manner. Travellers will not fail to appreciate the home-like comforts to be found at this hotel; the rates are lower and we feel sure all will appreciate the endeavors of Mr. Taylor to please his numerous friends and the traveling public.

**VAN WEY'S HALL.**

This is an imposing structure adjoining the Taylor House, and is fitted up with an apparent disregard to cost. It is one of the finest public Halls in the State, if we may be allowed to give our opinion. On a recent visit to Saginaw city we made a brief visit of inspection and was astonished at the beautiful finish given to all portions of the building; the painting and decorations are finished in an artistic manner, while the carving and ornamental work could scarcely be excelled. We think any one visiting Saginaw City should not fail to see this really fine Hal- before leaving. There are several entrances to the Hall from the cor ridors of the **Taylor House**.

## GENERAL BUSINESS REVIEW,

EMBRACING

MANUFACTURES AND PROMINENT BUSINESS HOUSES IN SAGINAW CITY.

Let us say here, that the following notices ARE NOT PAID FOR IN ANY INSTANCE—they are free of charge, and are intended to act as a guide to purchasers, showing where they may rely upon being treated honestly and fairly. We don't believe in PAID PUFFS, and prefer to give OUR space GRATIS, thus leaving us free and unfettered to say just what we think about these whose advertisements will be found in this Directory.

There are many we would notice in a more extended manner; but our space forbids entering into this matter at greater length. Amongst the most popular and prominent houses in Saginaw City, we may mention the following:

### GENERAL INSURANCE AGENCY.

A. S. & H. R. Gaylord, at their office in the Taylor House Block, corner of Court and Hamilton street, conduct a general insurance business on strictly honorable principles, where our friends wishing either fire, life, or marine (inland) insurance, can be accommodated with policies on fair terms, and with the utmost promptness.

By reference to their card, it will be seen that they represent some of the best companies in the United States. It is sufficient to name the Home of New York, the Ætna of Hartford, the old North America of

Philadelphia, in the fire department, and the Equitable of New York and New England Mutual of Boston, life companies, to say nothing of others equally reliable,—to show that all who have policies written by them can go to their rest at night with the comfortable assurance that whatever calamity of fire, or even death, may befall, will promptly be made good so far as insurance can do it.

They strive in all cases to consult the interests of their customers no less than that of their companies, and whoever insures with them (and we are glad to learn that their business is large and steadily increasing) will not be likely to regret having done so.

## FURNITURE AND CABINET WARE.

Our friend L. Burrows who occupies one of those elegant stores in the Trylor House Block, has a large and choice selection of furniture, consisting of chairs, oriental chairs, side boards, parlor, library and bedroom suites, center tables, looking-glasses, bolsters, pillows, mattresses, extension-tables, hat racks, what-nots, besides other articles too numerous to mention. All needing anything in the above line cannot do better than call on L. Burrows and look at his stock and prices.

## FINE GROCERIES AND PROVISIONS.

George W. Davis, on Water street, between Cass and Van Buren, has a large and select stock of groceries and provisions, and a full line of choice teas, coffees, sugars and spices. We all know the difficulty of procuring a good quality of tea, but let us say, Mr. Davis keeps the bes the market affords—therefore let all housekeepers make a note of the address, and give this store a trial. He also receives and sells ON COMMISSION pork, lard, flour, butter, cheese, eggs, green and dried fruits, &c.

## G. F. WILLIAMS & BROTHERS.

This reliable house is largely engaged in the manufacture of lumber, lath, shingles, posts, pickets, &c.
